

## THE VILLAGES AT CASTLE PINES

castle rock, colorado

Just south of the Denver metro area lies the community of Castle Rock. The Village at Castle Pines, a 34-unit retail shopping center in Castle Rock, is touted as the “Colorado’s Premier Marketplace.” When making such an assertion about a retail center, one must be certain that all elements of the location live up to the highest expectation. When it comes to architectural elements, the highest standards require Stromberg Architectural Products.

Stromberg supplied columns for the center made from our Glass Fiber Reinforced Concrete (GFRC).
