

SEATTLE CHILDREN'S

seattle, washington

GFRP

Stromberg Architectural designed, molded, manufactured, and installed five kid-friendly replicas of exotic wildlife to decorate the newest section of the Seattle Children's Hospital and Regional Medical Center. Working closely with the designers, Stromberg reinvented wildlife of Africa to help bring laughter and smiles to the children admitted to the hospital.

Seattle Children's Hospital maintains a long standing record of excellence in the field of child medical care, and required the same level of excellence to complete this job.

Our animal replicas will liven up any project. They are sure to catch attention in any venue, such as:

- Schools
- Restaurants
- Hospitals
- Banks
- Daycare Centers
- Retail locations
- Doctor's Offices
